2019 Fuel For The Fire Program

The promo code for the Fuel for Fire program is **14741**

Our belief in the performance and value of Bosch Communications products is strong and our customer feedback confirms this every day. So we are willing to help you convince yourself of this belief too, by giving you an opportunity to try Bosch products that are new to you.

For any product that you have not ordered in the past, we will offer a discount on your first order that will give you plenty of time to test and evaluate our gear.

We make it easy for you, by offering an additional discount on top of your normal price:

1. 15% additional discount on top of standard dealer price.

Why do we offer this discount?

It's pretty simple. We think that when you have a chance to test drive one of our products you will want to use it. Not just once but regularly in your future projects.

If for any reason you don't like a product, you can send it back to us within 90 days. We will credit your account for the full amount of the invoice and cover freight costs for both ways.

Products included in this program:

- ▶ Electro-Voice Professional Audio Products (with exception of Line Array Speaker systems)
- ▶ Dynacord Professional Electronics
- ▶ Bosch Conferencing
- ▶ Bosch Public Address
- ▶ Telex AudioCom
- ▶ RTS RadioCom

How does it work?

Place your order as you normally do through our customer service desk, and mention that you are ordering under the FUEL FOR THE FIRE program. Make certain the order and your P.O. include the **promo code 14741**. (The discount cannot be applied to orders that are submitted without the promo code.)

Terms & Conditions:

1. The FUEL FOR THE FIRE discount only applies to products that you have not ordered in the past.
2. Only dealers with an appropriate credit rating can apply for the FUEL FOR THE FIRE program.
3. The discount only applies to a limited number of the same item:
 - a. No more than 1 pair of install loudspeakers from the same family (such as EVF, EVH, EVU), regardless of exterior finish. "S" and "D" versions count as separate families
 - b. For ZLX, ELX200, ETX and EKX speaker families, the maximum order is 2 speakers and 2 subs per family.
 - c. 1 pair of any microphone model
 - d. 1 unit of any amplifier, DSP or mixing console
 - e. 1 basic system for Conferencing products (no more than 4 discussion devices)
 - f. 1 system for AudioCom and RadioCom
 - g. Line Array speakers are excluded from this program. We offer other programs that you can use for this.
4. Bosch reserves the right to reject any discount requests and may change or cancel the program without notice.
5. The FUEL FOR THE FIRE program cannot be used in combination with any other program.
